## **Program Delft Road Safety Course 2024-2025**

## Online sessions October - November 2024

| Day    | Time*        | Module | Activity  |
|--------|--------------|--------|---|
| 10 Oct | 11 AM – 1 PM | M 0    | Ice breaker/get to meet & Technicalities  |
| 11 Oct | 10 AM – 1 PM | M 1    | Course Introduction  Introduction to road safety problems and why a special Road Safety Course for LMIC  A strategic approach to road safety Road safety situation in LMIC  |
| 18 Oct | 1 PM – 4 PM  | M 2    | Road safety management  |
|        |              |        | <ul> <li>Road safety as a health issue</li> <li>The safe systems concept</li> <li>Road safety management</li> </ul>   |
| 24 Oct | 10 AM – 1 PM | M 3    | Traffic psychology: implications for interventions  |
|        |              |        | <ul><li>Risk behaviour</li><li>Road user centred Design</li><li>Changing human behaviour</li></ul>  |
| 1 Nov  | 1 PM – 4 PM  | M 4    | Understanding factors and developments in Vehicle safety and use  |
|        |              |        | <ul> <li>Vehicle related crash factors / EuroNcap</li> <li>Motorcycle safety for LMIC</li> <li>Formal and informal public transport impacts on road safety</li> </ul>   |
| 8 Nov  | 1 PM – 4 PM  | M 5    | Urbanisation, Urbanisation Network design and accessibility   |
|        |              |        | <ul> <li>Urbanisation trends and transport impacts in LMICs</li> <li>Road classification, network design and impact on safety</li> <li>Vulnerable road users</li> </ul>   |
| 15 Nov | 10 AM – 1 PM | M 6    | Informing policy decisions: risk groups, crashes, safety indicators, prediction models and research   |
|        |              |        | <ul> <li>The need for road safety research</li> <li>Informing policy decisions: risk groups, crashes, safety indicators, prediction models and research</li> <li>Road safety data, data collection and data analysis</li> </ul> |

During the online sessions there is time scheduled for Q&A and assignment briefings.

<sup>\*</sup> all times are Central European Time

## Program Delft Road Safety Course 2024-2025

## Class-room based part TU Delft NL; 7 – 11 April 2025

| Day         | Module | Activity   |  |
|-------------|--------|--|--|
| 7 April 25  | M 7    | Refresher online modules   |  |
|             |        | - RSM, Traffic phychology, vehicle safety, ubranisation  |  |
|             | M 8    | Safe speeds, safe road networks and streets  |  |
|             |        | <ul> <li>The concept of safe and credible speed</li> <li>Risk factors on roads with focus on vulnerable road users</li> <li>The importance of road design</li> <li>Speed, road safety and design (traffic and safety engineering/managing traffic)</li> <li>Road safety audit, NSM, Inspections and road safety impact assessment</li> </ul>   |  |
| 8 April 25  | M 9    | Countermeasures: 2020 – 2030   |  |
|             |        | <ul> <li>Effective Interventions: Tools for safer roads</li> <li>Safe system road infrastructure</li> <li>Enforcement</li> <li>Education</li> <li>Identifying effective interventions and estimating impacts<br/>(iRAP/SafetyCube)</li> </ul>  |  |
|             | M 10   | Informing policy and data analysis   |  |
|             |        | Road safety data, data collection and analysis (refresher M 6)  Participants work in groups and analyse a pre-prepared dataset of road safety data to identify high risk groups, locations etc. and if possible prepare a set of countermeasures.  |  |
| 9 April 25  | M 11   | Technical visits   |  |
|             |        | Visit laboratories of the TU Delft<br>Tour of Safe system roads, Traffic enforcement etc.  |  |
| 10 April 25 | M 12   | Designing and writing strategic plan   |  |
|             |        | <ul> <li>Introduction</li> <li>Specific issues related to developing strategic plans in LMICs</li> <li>Road safety targets through strategic action plans</li> <li>Getting evidence based and data driven policies implemented (RSM approach)</li> <li>Preparation of road safety strategy presentation</li> <li>Students are organised into countries/regions to finalise the preparation of their country specific strategic road safety plans.</li> </ul> |  |
| 11 April 25 | M 13   | Presentations strategic and action plans   |  |
|             |        | Presentations of the developed strategic plans and insights into strength, weaknesses, opportunities and threaths from a Safe system implementation perspective  |  |
|             |        | Individual assessment and development plans, feedback and closure  |  |
